Troubleshooting and FAQs

1. *Why can't I close the game?*

The most common mistake made by players is to play the game in full screen mode. The game MUST be windowed otherwise you will not be able to exit it. If you have done this you can exit the game by pressing the windows button or CTRL+ATL+DELETE.

2. *Why does the screen go black when I attempt to resize?*

The game is optimised for only one screen size. Though the window allows you to resize the window the game itself will not resize. You will miss parts of the game e.g. your player may disappear.

3. *What are the controls and can I change them?*

Controls can be found on this website under the HOW TO PLAY section or referred to in your User Manual. The controls, generally are the arrow keys for movement or the W, A, S, D configuration and firing is any of the mouse buttons though the left is recommended.

4. *I have lost my User Manual. Can I get another one?*

A soft copy of the User Manual is saved onto your CD packaged with your copy of Pirates vs. Sea Monsters. You are free to keep copies of this manual or

print it should you like a hard copy. The User Manual can also be found on this website at the bottom of this page. EDGE STUDIOS and EDGE SS will not reprint and send copies of the User Manual to players.
